Bengaluru, India 560016

PROFESSIONAL SUMMARY

Motivated software developer Final-year Computer Science engineering student at Cambridge Institute of Technology, Bangalore, with strong skills in Python, JavaScript, and machine learning. Experienced in building AI-powered applications including object detection, fake news detection, disaster reporting systems, and academic expert discovery platforms. Proficient in natural language processing, computer vision, full-stack development, and data-driven system design. Passionate about developing innovative and scalable solutions that address real-world challenges and enhance user experience through intelligent technologies.

PROJECTS

Neuro Behavior Analysis System [2026] | ([Code Link](#))

- Developed an AI-based behavioral analysis system for early neurological disorder detection from surveillance videos.
- Implemented person detection and tracking using YOLOv8 and ByteTrack with a modular computer vision pipeline.
- Tech Stack: Python, YOLOv8, OpenCV, MediaPipe, ByteTrack, NumPy, Computer Vision.

AI Interview Coach [2026] | ([Code Link](#))

- Built an AI-powered interview platform that generates personalized interview questions using LLMs based on candidate resumes and job roles.
- Integrated speech recognition, AI feedback, and answer evaluation to simulate real interview experiences.
- Tech Stack: React.js, FastAPI, Python, MongoDB, Tailwind CSS, JavaScript, LLMs, REST APIs.

Multi-Language Fake News Detection [2026] | ([Code Link](#))

- Developed an AI-powered fake news detection platform to classify news articles as real or fake across multiple languages.
- Added multilingual support, translation features, and confidence-based prediction for improved cross-lingual misinformation detection achieving 75% classification accuracy.
- Tech Stack: YOLOv8, Python, OpenCV, NumPy, HTML, CSS, JavaScript.

TECHNICAL SKILLS

- Programming Languages :** C, Java, Python
- Frameworks :** React.js, Node.js, Tailwind CSS
- Databases :** MongoDB, MySQL
- APIs :** RESTful APIs
- AI & Machine Learning:** NLP, Machine Learning, Large Language Models (LLMs), Prompt Engineering
- Tools :** Git, GitHub

CERTIFICATION

- Cumulative Generative AI Programming – Computer Vision Mar 2026 – Apr 2026
- Natural Language Processing – VTU mooc May 2026

RELEVANT COURSEWORK

- Data Structures and Algorithms
- Database Management Systems
- Operating Systems
- Computer Networks
- Machine Learning
- Computer Vision
